Cosmic Evolution And the Evolution of Life

By Subir Bijoy Sengupta

2011. Hardcover. Book Condition: New. 258 As living beings we are very much acquainted with life but to us life is still a principle shrouded in mystery only. Even after our philosophical quest for a few thousand years life is still forcing us to use only figurative language to explain it. We are yet to find answers to the questions -What is life? How does it evolve and why? In this book the author has made a serious attempt to find answers to the above questions. He has formulated a hypothesis through which he has shown how the primordial stuff or the first principle behind the cosmos gives rise to the principle of life as its log Contents:- Contents # Preface 9: 1.
