All the woodsy places are cool and dripping and dim and delicious. A month later they will be not less beautiful, perhaps, but less approachable. The things of Nature grow sophisticated as the season advances. In the early springtime they are frank and confiding, and willingly tell the secrets of their growth to him who asks. They have time, in these first beginnings of things, for friendly sociability: to show their tiny roots and bulbs, and let us study the delicate, gracious unfoldings of leaf and bud and blossom. In a few weeks they will all be too busy, keeping up with the season's swift march, keeping up with the lovingest of human friends. Do we forget, from springtime to springtime, how lovely will be the year's awakening? Each winter of our discontent I think that I remember, as my longing imagination looks forward, the tender charm of the springtime wonder, yet with each recurring year it comes to me as a new and unknown joy.
